# Flexi 2022.2

**Release notes** 

# What's new in Flexi 2022.2

Each release of the communication platform Flexi contains both new features as well as improvements and fixes. Over 80+ bugfixes and several new features

# Wallboard

New feature, web-based wallboard interface. User can create their own wallboard for Gatewaygroups. Get an overview of group status and calls today.

Use Presentity web to create a wallboard and set target to a group and add keys values.

Add sections and pages for different groups or departments. Pages can alternate after configured time.

Wallboard interface
